

# There are no magic pills or potions to eliminate problems, create success, alleviate trauma ... .

Some things that, in my professional experience, absolutely DO NOT work:

- Rehab and 12 step programs
- Acting powerful
- Wealth and fame
- Speed grieving
- Forgiving "them"
- Minimizing
- Positivism
- Spiritual bypassing
- Anti-depressants
- Gratitude
- Diets
- Praying

## Nothing, Nothing, Nothing Works Until You Heal Your Soul Wounds.

**Vladimir Kanizaj** teaches Life Mastery.  
People call him "**The Soul Woundologist**".

Shipped to Canada from Europe at age 4 to re-unite with his parents, he was subjected to a brutal childhood; physically, emotionally and spiritually. In adulthood he continued to abuse himself until, at age 39, he was told he had 3 months to live. As he began his healing journey, anything he attempted based on traditional healing methods did not work for him. He then discovered a method that helped him heal his soul wounds, while at the same time saving his physical life. He has since helped countless others "come back from the living dead".

**A process that works; GUARANTEED!**
